2019-07-23

Excellency,

I have the honour to inform you that the International Atomic Energy Agency (IAEA) will hold the **Technical and Scientific Support Organizations (TSO) Forum: National meeting on developing and strengthening technical and scientific capacity** (hereinafter referred to as "event") in Centurion, South Africa, from **25 to 29 November 2019**.

The objective of the event is to support the Member State in developing its strategy related to the Technical and Scientific Support Organizations Forum.

The event will be held in English.

The Secretariat understands that an expert from the Nuclear and Radiation Safety Center (NSC) could make a valuable contribution to the event and would thus appreciate your Government's consideration to accept his/her designation by the IAEA.

We understand that all expenses incurred in connection with the expert's services will be paid by the expert's authorities.

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in IAEA events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

I would appreciate receiving your Government's response not later than **22 August 2019**.

Accept, Excellency, the assurances of my highest consideration.

Gustavo Caruso

Director

Office of Safety and Security Coordination

Department of Nuclear Safety and Security
