International Workshop on Nuclear Security Culture in Practice

Hosted by the

Government of India

through the

Global Centre for Nuclear Energy Partnership

**Bahadurgarh, India
14–17 September 2020**

Ref. No.: EVT1904996

Information Sheet

Introduction

The IAEA defined the nuclear security culture concept in the Implementing Guide on *Nuclear Security Culture* (Nuclear Security Series No. 7) in 2008. Since then, an increasing number of Member States have recognized the importance of a strong nuclear security culture for effective nuclear security. Despite this, many Member States are not yet familiar with the concept and how it can be applied in practice. There is a need to put the nuclear security culture concept into practice. This workshop is designed to address this need building upon the IAEA concept of nuclear security culture defined in Nuclear Security Series No. 7.

Objectives

The objective of the event is to raise awareness of the importance of nuclear security culture internationally, and to enhance the understanding of the importance of nuclear security culture to prevent against these risks.

Target Audience

The workshop is intended mainly for persons who are decision-makers and/or senior staff from national regulatory bodies and/or other organizations and institutions that are responsible for nuclear security, or that would be called upon to respond to a security event involving nuclear or other radioactive material, such as military, police, border control, customs and other emergency response organizations from countries having nuclear facilities(NFs) and/or nuclear power plants (NPPs) in operation or under construction, in advance stage of planning or temporarily shut down. It is assumed that designated participants will have a solid understanding of, or experience in, nuclear security. The participants should preferably be equally distributed between regulatory bodies, operating organizations, response organizations and supporting institutions.

Working Language(s)

English

Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State that has been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **22 June 2020**.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to his or her State's nuclear security arrangements.

The application for financial support should be made using the **Grant Application Form (Form C)** which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **22 June 2020**.

Visas

Participants who require a visa to enter India should submit the necessary application as soon as possible to the nearest diplomatic or consular representative of India.
