Excellency,

I have the honour to inform you that the International Atomic Energy Agency (IAEA) will hold the **Consultancy Meeting on Expert Missions on National Nuclear Security Response Plans** (hereinafter referred to as "event") virtually via Cisco WebEx from **13 to 16 July 2020**.

The purpose of the event is to review and amend the guideline material for expert missions on national nuclear security response plans.

The event will be held in English.

The Secretariat understands that Mr Yongde Liu, China Atomic Energy Authority (CAEA), could make a valuable contribution to the event as an expert and would thus appreciate your Government's consideration to accept his designation by the IAEA.

The IAEA takes no responsibility for, and the provider of the virtual meeting services has represented and warranted that the Services shall not contain, and that no end user shall receive from the software used to hold the virtual meeting, any virus, worm, trap door, back door, timer, clock, counter or other limiting routine, instruction or design, or other malicious, illicit or similar unrequested code, including surveillance software or routines which may, or is designed to, permit access by any person, or on its own, to erase, or otherwise harm or modify any data or any system, server, facility or other infrastructure of any end user (collectively, a "Disabling Code").

I would appreciate receiving your Government's response not later than **3 July 2020**.

Accept, Excellency, the assurances of my highest consideration.

Raja Abdul Aziz Raja Adnan

Director

Division of Nuclear Security

Department of Nuclear Safety and Security
