2025-07-03

Excellency,

I have the honour to inform you that the International Atomic Energy Agency (IAEA) will hold the Consultancy Meeting to Develop a Detailed Structure of the New IAEA Safety Guide on Development and Application of Level 3 Probabilistic Safety Assessment (DS560) (hereinafter referred to as "event") at its Headquarters in Vienna, Austria, from 1 to 3 September 2025.

In addition, the event will allow for virtual participation via Microsoft Teams.

The purpose of the event is to discuss the existing practices and experiences on Level 3 Probabilistic Safety Assessment and develop a detailed structure of the new IAEA Safety Guide on Development and Application of Level 3 Probabilistic Safety Assessment (DS560).

The event will be held in English.

The Secretariat understands that Mr Liguo Zhang (Institute of Nuclear and New Energy Technology, Tsinghua University, Room 110, Energy Science Building D, No. 1, Qinghuayuan District, 100084 Beijing, China; Email: <u>lgzhang@tsinghua.edu.cn</u>), Mr Jingang Liang (Institute of Nuclear and New Energy Technology, Tsinghua University, QingHua Yuan, Nengke Building D101, 100084 Beijing, China; Email: <u>jingang@tsinghua.edu.cn</u>) and Ms Jiejuan Tong (Institute of Nuclear and New Energy Technology, Tsinghua University, QingHua Yuan, Nengke Building D101, 100084 Beijing, China; Email: <u>iingang@tsinghua.edu.cn</u>) and Ms Jiejuan Tong (Institute of Nuclear and New Energy Technology, Tsinghua University, QingHua Yuan, Nengke Building D101, 100084 Beijing, China; Email: <u>tongjj@tsinghua.edu.cn</u>) could make a valuable contribution to the event as experts and would thus appreciate your Government's consideration to accept their designation by the IAEA.

The IAEA will provide Ms Tong with travel and living expenses, including incidentals, connected with the event in accordance with the IAEA's procedures for non-staff travel. We understand that all expenses incurred in connection with Mr Liang's and Mr Zhang's services will be paid by the experts' authorities.

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in IAEA events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

The IAEA takes no responsibility for, and the provider of the virtual meeting services has represented and warranted that the Services shall not contain, and that no end user shall receive from the software used to hold the virtual meeting, any virus, worm, trap door, back door, timer, clock, counter or other limiting routine, instruction or design, or other malicious, illicit or similar unrequested code, including surveillance software or routines which may, or is designed to, permit access by any person, or on its own, to erase, or otherwise harm or modify any data or any system, server, facility or other infrastructure of any end user (collectively, a "Disabling Code").

I would appreciate receiving your Government's response not later than 25 July 2025.

Accept, Excellency, the assurances of my highest consideration.

anna Bradfard

Anna Hajduk Bradford Director Division of Nuclear Installation Safety Department of Nuclear Safety and Security
